

## List of State Reciprocity Requirements— Barber

In the barbering profession, each state establishes licensure requirements for being able to practice in their state. Programs of study in barbering can range anywhere from 900 clock hours to 1,800 clock hours, and as such, states develop specific requirements for individuals who graduated from barber school in one state to be able to become licensed in another state. This process is considered reciprocity or endorsement. We have listed the requirements for an individual who graduates from a barbering program in the United States and wants to become licensed in another state.

Please note that the school you are planning on attending has only had their curriculum evaluated by their state to meet requirements for licensure and practice. In the field of barbering, each state board reviews the number of clock hours you attended in your home state, the subject areas, and the practical experiences you completed as a part of the process of determining what, if any, additional requirements you may have to meet in order to become licensed in their state. We encourage all graduates who are considering becoming licensed in another state to first take the licensure exam in their home state, which will make it easier to transfer into another state. If you are not licensed by your home state, the state you are considering getting licensed in may require you to take additional training to meet their state minimum hour requirements and/or take their state licensure exam. State boards of barbering do not evaluate the curriculum of schools located in other states, but do, in most cases, recognize training from other states. Please refer to the requirements below.

## List of State Reciprocity Requirements Cosmetology Barbering (1700 hours)

In the cosmetology profession, each state establishes licensure requirements for being able to practice in their state. Programs of study in cosmetology can range anywhere from 1,000 clock hours to 2,100 clock hours, and as such, states develop specific requirements for individuals who graduated from cosmetology school in one state to be able to become licensed in another state.
